00:00:15,360 --> 00:00:19,480

I have hearing aids, which I've had for,

2

00:00:20,160 --> 00:00:22,200

I suppose, four or five years now.

3

00:00:22,240 --> 00:00:27,040

And, so I've found that necessary to hear better.

4

00:00:27,040 --> 00:00:31,360

I must admit that I don't wear them the whole time

5

00:00:31,360 --> 00:00:36,360

and I get into trouble from my hearing aid experts about that,

6

00:00:36,400 --> 00:00:40,720

but I find that they are necessary and helpful.

7

00:00:40,720 --> 00:00:44,280

Well, I enjoy interacting with people,

8

00:00:44,800 --> 00:00:49,600

and of course, communication is important to do that.

9

00:00:49,960 --> 00:00:58,560

*And, I find communication is not only a case of having
good hearing aids or things like that,*

10

00:00:58,600 --> 00:01:03,680

but facial expressions as part of the communication process.

11

00:01:03,720 --> 00:01:08,720

So, I feel somewhat frustrated at times wearing masks,

12

00:01:08,760 --> 00:01:15,720

but I think interacting that way is an important part of communicating.
