

Meet Kai

A Communication Hub resource

(Gentle upbeat music)

1

00:00:15,560 --> 00:00:20,120

Autism impacts my communication by not being able

2

00:00:20,160 --> 00:00:27,480

*to say stuff clearly and either speaking
really quietly or speaking really loudly.*

3

00:00:27,520 --> 00:00:29,680

And, sometimes if I am in between,

4

00:00:29,720 --> 00:00:36,800

it's a rare occurrence.

5

00:00:37,960 --> 00:00:46,840

*So, it's just very different from how
other people would explain it to be.*

6

00:00:46,840 --> 00:00:52,000

But, that's how I would explain it for me,

7

00:00:52,000 --> 00:00:56,320

because, again, I can't explain things in the way

8

00:00:56,320 --> 00:00:59,600

that I feel like I should be explaining stuff.

9

00:01:00,600 --> 00:01:02,480

I can't communicate.

10

00:01:06,600 --> 00:01:15,240

It feels like I'm in a cramped space where

I'm normally okay with cramped spaces,

11

00:01:15,240 --> 00:01:17,840

but it's too cramped for me to handle.

12

00:01:18,000 --> 00:01:19,920

That's what it feels like.

13

00:01:19,920 --> 00:01:27,160

It's like a very tight box that I can't deal with anymore.

14

00:01:27,200 --> 00:01:31,480

And, that's how it feels like when I can't communicate at school.

(Gentle upbeat music)
